FIRE CAUSES THE LOSS OF \$1000

Furniture and clothing valued at nearly \$1000 were destroyed last night by fire at the home of A. Siner, 189 Twenty-seventh street. The blaze started in the dining room of the residence, burning the furniture and woodwork and spread to a clothes closet, in which clothing belonging to members of the family and guests from Chicago was stored. Virtually all of the clothing was destroyed. Mr. Siner carries sufficient insurance to cover the loss.

Refrain from happening in at all times of day or night, and if you should call at an unreasonable hour do not be offended if they have to leave you to yourself.

S. A. M. CORNELL HELD TO DISTRICT COURT ON \$1000 BAIL

Arthur M. Cornell, alias A. M. Carpenter, was arraigned this morning in the municipal court on the charge of embezzlement. He waived his preliminary hearing and was bound over to the district court with bail set at \$1000. The complaint against Cornell alleges that he embezzled \$500 from the Murphy-Harley Wholesale Drug company of Ogdens on September 18, 1914.

He was brought from Kansas City this morning by Sheriff T. A. DeVine. Another state case brought before the city court this morning was that against Nick Kallias, Nick Karabas and Mike Karabus. The defendants were charged with having illegally used more water from the South Slatterville canal than they had contracted for. The charge against Kallias was dismissed and the other two men pleaded guilty. They were fined \$5 each, that amount being considered sufficient punishment in view of the fact that they had paid for the water illegally taken from the canal.

FOOT SPECIALIST AT WRIGHTS' TOMORROW

Noted Chicago Specialist Will Be in Ogdens for Two Days.

Mr. Mok, an orthopedic specialist, will be at the shoe department in Wrights' store two days beginning today. This live shoe store is endeavoring to more than merely sell shoes to its customers—this present demonstration is another example of its efforts to give service.

"There are more foot ailments than corns," says Mr. Mok, "and most of them are a more serious nature. Hundreds of people have broken arches from wearing improper shoes in their childhood, and many of them wonder why their feet ache and grow tired, why they cannot walk long distances and why their feet tire soon when standing."

The Scholl Foot Comfort Service is intended to give relief to all foot sufferers and to prevent deformities in the feet of children. There is an appliance for every foot ailment or deformity, but the layman can rarely, if ever, select and fit it properly to the trouble.

"I shall be at Wrights' shoe store for two days only, Monday and Tuesday of this week. I shall examine the feet of all who wish it, and shall advise them according to their needs—there will be no charge for my services, that is one of the additional services of Wrights' store."—Advertisement.

ROCKEFELLER ON INSPECTION TOUR

Trinidad, Colo., Sept. 20.—John D. Rockefeller, Jr., arrived here at 8 o'clock today for an inspection of the properties of the Colorado Fuel & Iron company. Mr. Rockefeller and his party probably will spend two or three weeks in Colorado.

No definite itinerary has been planned. It is expected that the program will be arranged from day to day in accordance with Mr. Rockefeller's wishes and conveniences.

Planned Trip Early.
The Colorado visit of Mr. Rockefeller, as active representative of the principal owning interest of the Colorado Fuel & Iron company, has been planned since early in the year. It had its inception at the New York hearings before the federal commission on industrial relations.

On January 27, Mr. Rockefeller was a witness before the commission. After leaving the stand for the noon recess, the capitalist stopped to speak to "Mother" Mary Jones, whom he had previously had invited to call upon him and talk over the Colorado labor situation.

"After we have our conference," said Mother Jones, "I want you to come out to Colorado with me and see the things I have seen. I am sure what you see will make you do things and will make you one of the greatest men."

Rockefeller said he might go to Colorado with "Mother" Jones. The next day Mrs. Jones issued a statement in which she expressed the hope that Mr. Rockefeller would visit Colorado "while the ashes of Ludlow are still hot."

Labor Leaders Urge Magnate.
Other labor leaders present at the industrial relations urged Rockefeller to visit the scenes of the recently ended Colorado coal miners' strike, and it was agreed that he would make the trip as soon as business affairs and other matters would permit him to leave the east.

The trip was planned for April, but the death on April 16 of Senator Nelson W. Aldrich, Mr. Rockefeller's father-in-law, forced a postponement. Other causes of delay prevented Mr. Rockefeller starting for the west until last week. Mr. Rockefeller, who had travelled

all the way from New York without his destination becoming known, stepped from an ordinary sleeping car on an Atchison, Topeka & Santa Fe train arriving from Chicago. He was accompanied only by his secretary, Charles O. Heydt. Mr. Rockefeller was welcomed at the station by Jesse F. Welborn, president of the Colorado Fuel & Iron company; E. H. Weitzel, manager of the fuel department; W. L. Mackenzie King, head of the industrial welfare department of the Rockefeller corporations, and F. A. McGregor, Mr. King's secretary. Mr. Rockefeller and Mr. Heydt immediately went to breakfast in a local hotel while Mr. Welborn made arrangements for an early start to one of the mining properties of the company.

The Germans, as soon as they embarked on their famous submarine blockade, began turning out torpedoes in five months' time. These, instead of carrying 250 to 300 pounds of gun-cotton, carry a charge of 100 pounds or less. They have a range of only 1,000 to 1,500 yards, so that much of the intricate steering and propelling mechanism is omitted. These new miniature torpedoes cost only \$2,500, and are able simply to blow up the small merchant vessels which have been the chief victims of the blockade.

Germany, too, manufactures a sort of intermediate torpedo, with a range of 4,000 to 7,000 yards, that costs about \$6,500.
